

KHIE Patient Portal

Mary Gaetz

Patient Engagement Coordinator
CHFS/Kentucky Office of Health
Benefit and Health Information
Exchange

Why KHIE PHR?

- Opportunity for more complete medical history
- Our portal meets MU Stage 2 requirements for patient engagement
- We provide outreach materials for your patient
- We provide training to practice staff
- Cost- KHIE PHR is free

myhealthnow

easy online health records

myhealthnow is a tool that lets you see your health information over the Internet. You can see your office visit records, review your lab results, and even update your personal information. It is completely safe so you can be certain that your private information is protected. We hope this new tool will help you take an active role in your healthcare.

myhealthnow
easy online health records

Why now: because there is no better time to take control of your health

Why now: because you don't want to have to wait days or weeks for your test results

Why now: because you can have all your health records in one place

Why now: because your caring for an elderly parent and need access to their complete medical history

Why now: because your doctor needs your complete medical history to provide the best care for you

Why now: because you don't want to have to pay for a test or lab work that was recently done by another doctor

The logo for myhealthnow, with 'my' in green and 'healthnow' in a lighter green.

easy online health records

Why now: results in increasing patient satisfaction, especially through the use of technology

Why now: patient engagement can improve quality and safety

Why now: better engagement increases hospital efficiency and revenue, since those patients are less likely to be readmitted

Why now: patient engagement/activation have found a positive relationship to health status outcomes

Why now: Medical excellence is enhanced when patients truly understand the treatment plan.

Why now: Incentive payments for those hospitals/providers that meet federal requirements for meaningful use
